Computing Vision
Business Proposal

August 2023.

Overview
Presentation Agenda

- **Business Goals**
  - Overview and Understanding

- **Data**
  - Usage and Analysis
  - Statistical Inference and Understanding

- **Recommendations and Next Steps**
  - Budget Range per Genre
  - Most Popular Genres
  - Profit per Release Month

- **Concluding Thoughts**

We seek to analyze extensive data from past films, aiming to understand what specific factors lead to the greatest probability of success in the creation of future movies

Data Overview

Brief Description Here: Important stats about where we got the data and what is included like number of movies, how many reviews included, and total amount of money included

9	57	116	216	297	301	304
Tables and structured text	Charts and graphs	Diagrams	Illustrative graphics, charts and diagrams	Animations	Iconography	Appendix

Data by the Numbers

How the team handled and analysed the data

01
Maecenas tincidunt fringilla felis vel bibendum. Maecenas porttitor tortor convallis quam aliquet viverra.

02
Maecenas tincidunt fringilla felis vel bibendum. Maecenas porttitor tortor convallis quam aliquet viverra.

03
Maecenas tincidunt fringilla felis vel bibendum. Maecenas porttitor tortor convallis quam aliquet viverra.

04
Maecenas tincidunt fringilla felis vel bibendum. Maecenas porttitor tortor convallis quam aliquet viverra.

05
Maecenas tincidunt fringilla felis vel bibendum. Maecenas porttitor tortor convallis quam aliquet viverra.

06
Maecenas tincidunt fringilla felis vel bibendum. Maecenas porttitor tortor convallis quam aliquet viverra.

- Fill in with how we manipulated, cleaned, merged data on a non-technical level to gain complete understanding

Next Steps

1 Look to Implement
